

## Employee Training Guide

Thank you for supporting CORE: Children of Restaurant Employees. We encourage you to share this information with your entire team. *(The information below can be customized by you to include details about your fundraising promotion.)*

### What is CORE?

CORE: Children of Restaurant Employee's is a national non-profit that provides financial relief to food and beverage service employees with children when either the employee, spouse, or child faces a life-altering health crisis, medical diagnosis, death, or natural disaster. Founded to help our industry's children, a CORE grant may cover rent/mortgage, utilities, out-of-pocket medical supplies, and/or basic necessities. To learn more about CORE's grant criteria and required documentation, visit [www.coregives.org](http://www.coregives.org). Companies and individuals have made generous donations to help employees that qualify for a grant when they face one of these crises.

CORE has helped employees with children in all 50 states, D.C., and Puerto Rico. Your company joins an industry-wide initiative to raise funds for employees in our industry that may face a qualifying circumstance. We will raise funds through (insert fundraising activity) and encourage our customers to donate to CORE at [www.COREgives.org](http://www.COREgives.org).

As an official CORE partner, we will also offer this resource for our employees with children that qualify for a grant.

### How do we help?

Our company is honored to partner with CORE to raise critical funds needed for this industry focused cause. We will raise funds through (insert promotion/fundraising details and dates). Tell your guests about the fundraising promotion. Together we will help more families that face a qualifying circumstance.

To learn more about CORE, visit [www.coregives.org](http://www.coregives.org) and if you have questions, please contact CORE at [Info@COREgives.org](mailto:Info@COREgives.org)
